

Township Sewer Rates: 2026 (effective 04/01/26)

Code 60: Operation and Maintenance	\$18.79 per customer per month
Code 61: Repair and Replacement	\$23.15 per customer per month
Code 62: Debt	\$11.41 per customer per month
Code 63: Administration Fee	<u>\$ 2.90</u> (<i>Adjusts at rate of .10 per year per customer</i>)
TOTAL	\$56.25 per customer per month

Descriptions for what these categories for the monthly bills pay for.

Code 60 - Operation and Maintenance: This is a flat rate fee. This pays for any operation and maintenance costs for the Township system like electric charges for the pump stations, reimbursement to the Village DPW for any normal O/M they do on the system including Miss Dig flagging, and percentage of operation at the wastewater treatment plant. (Flow cost)

Code 61 - Repair and Replacement: This is an amount that the Township builds up for any repairs or replacement of Twp pipes, pump station parts or any other equipment necessary on our system.

Code 62 - Debt: This amount goes toward the bond debt at the wastewater treatment plant. The formula for this is based on the REU count/ the number of township customers.

Code 63 - Administration Fee: This fee goes to the Village for the utility billing portion of the system. Per agreement, this fee is raised by .10 cents per year.
